

BSO CARRIER SOLUTIONS SUPPORTS “INTERNATIONAL TELECOM WEEK 2011”

The meeting point for the global wholesale telecommunications community

23 – 25 May 2011, Marriott Wardman Park Hotel - Washington, DC

BSO Carrier Solutions - Booth n° 648

www.bsocarrier.com

London, the 5 May 2011 – At the occasion of the ITW 2011 that takes place in Washington from 23rd to 25th May 2011, BSO Carrier Solutions, offering wholesalers a full range of infrastructure services based on IP and data transfer solutions (Carrier services - Ethernet services - IP/ MPLS services - Colocation - White Label Operations Center) will present its extended network, new low latencies and capabilities to the international telecom market.

Thanks to major investment, BSO Carrier Solutions today offers low latency global network linking Europe to Asia-Pacific, Europe to USA, USA to South America and USA to Asia on the shortest paths.

Its global network, SDH, DWDM and dark fiber services, offers BSO Network and Carrier Solutions to personalize the most suitable solution for its carrier client's needs. Its multiservice platform is built on two, new-generation IP and DWDM networks that deliver the scalability, flexibility and availability necessary for convergence and growing bandwidth needs.

BSO Network and Carrier Solutions have developed a robust, secure and far reaching network on a global basis.

- Full Range of Services: VPLS, VLL, MPLS , Transit ...
- Full Range of Capacity formats
- Flexible and Scalable
- Secure and Innovative
- Technical support
- Excellence of Service & Project Management

“We develop our operational excellence by focusing on creating a world-class service company, securing quality in our networks and achieving a best-in-class cost structure.” Says Michael Ourabah, CEO and co-founder of BSO Network and Carrier Solutions. “Taking part to the ITW 2011 shows our international commitment to be an alternative player on the Telecommunication market”.

About BSO Network Solutions

As an operator of tailor-made infrastructure solutions and services, BSO Network Solutions provides major accounts, SMEs, operators and service providers with managed NaaS (Network as a Service), IaaS (Infrastructure as a Service) and PaaS (Platform as a Service) solutions. The complementarity of our 3 main offerings enables our customers to process, store, secure and deliver their data:

Network services: BSO Network Solutions owns an nx10Gbps IP MPLS network that is already compatible with 100Gbps interfaces and covers 16 countries (Germany, Australia, Belgium, Brazil, Canada, Dubai, Spain, USA, France, UK, Hong Kong, Italy, The Netherlands, Russia, Switzerland and Turkey). It has offices in Paris, London and Hong Kong.

Hosting: BSO Network Solutions offers tailor-made, optimal-quality hosting services for your applications and infrastructure, with more than 45 hosting facilities in 12 countries, and 99.999% availability guaranteed for all hosting services.

IT integration: BSO Network Solutions is a one-stop shop providing personalized guidance for the selection, integration and deployment of reliable, high-performance solutions that are tried and tested in our own laboratory. BSO Network Solutions is also a technological think-tank and a global NOC available 24/7/365.
